

Aeroaccess is one of the leading providers of complex WLAN network solutions. Since 2008 we convince with our expert knowledge and passion for technological and logistical challenges, but also with our cohesion and flat hierarchies. Based in Ismaning near Munich, we develop individual yet integrated mobile enterprise solutions for our predominantly international customers. Our delivery and service availability covers more than 170 countries.

Our common goal: to implement outstanding and innovative projects worldwide.

For the continuation of our successful company history we are looking for a committed and sympathetic personality at the earliest possible date

to expand our technical team:

### **Presales Technical Service Engineer (m/f/d)**

(Permanent full-time employment; no temporary work)

#### **Your most important tasks:**

- Support of the sales department in the preparation of offers and tenders
- Preparation and installation of network solutions for customers
- Project planning, installation and administration of services
- Technical support, system configuration and mobile integration diagnostics for our globally active customers and partners
- Contact person for our customers in technical questions

#### **Your profile:**

- You have successfully completed a degree in electrical engineering (ideally high-frequency engineering) or computer science.
- You have experience in the planning and installation of complex network solutions (> 3 years), especially in the area of WLAN.
- You are team-, customer- and result-ambitious
- You are willing to travel (approx. 20 %)
- You are fluent in spoken and written German and English, other foreign languages are an advantage
- Optimally you have experience with Aruba / HPE / Cisco products.

#### **We bid:**

- Familiar working environment with flat hierarchies in an international team
- Interesting sphere of activity with focus on future digitization developments
- Regulated working hours incl. time recording, where the availability of work and family is guaranteed; we focus on an extended work-life balance

- Performance-related salary that can be extended via a bonus system
- Thorough training
- Attractive global and individual training opportunities as a future factor
- Working independently in a growing environment
- Support in housing procurement

Have we sparked your interest?

Then please send your detailed application (with curriculum vitae and certificates in max. 2 files in PDF format), stating your earliest possible starting date and your target salary expectations, preferably by e-mail, to the following address

Aeroaccess GmbH  
Human Resources  
Klenzestraße 1-3  
85737 Ismaning

**We look forward to getting to know you!**

**Did you know, ...**

...that most jobs at Aeroaccess are offered both full-time and via variable working time models or part-time? - Even during the year in alternation! Our personnel manager likes to speak of a freely selectable work-life balance.

...that Aeroaccess in the dual system supports work/study places for the Bachelor in different study courses, e.g. for logistics at the IUBH, .... and even pays the tuition fees.

...that Aeroaccess also supports work/study places for the Master in various study programs, currently full-time or part-time and also pays the tuition fees here.

...that Aeroaccess offers internships and taster courses for pupils as well as students, usually even better paid than usual. One of our colleagues started at Aeroaccess as a temporary employee during his studies and is now on his way into management.

... that Aeroaccess has integrated a bonus system which is not only designed for technicians. Here everyone can earn extra €'s.

... that at Aeroaccess the topic of further education is an integral part of the activity. Also here applies: Not only for technicians, and in the bonus system embodied.
