

Aeroaccess is one of the leading providers of complex WLAN network solutions. Since 2008, we have been convincing with our expert knowledge and passion for technological and logistical challenges, but also with our cohesion and flat hierarchies. From our headquarters in Munich / Unterfoehring, we develop individual but integrated Mobile Enterprise solutions for our predominantly international customers. Our delivery and service availability extends to over 170 countries.

Our common goal: to implement outstanding and innovative projects worldwide.

For the continuation of the successful company history we are looking for a committed and likeable personality.

Start your career with IUBH Dual Studies and Aeroaccess GmbH:

With us you will gain insights into international logistics, national and international customs, cost calculations, handling the merchandise management system and RMA processes, among other things.

Dual Bachelor Degree

Business Administration Logistics Management

Your most important tasks:

- Right at the beginning of your studies you will be part of the logistics team that deals with the worldwide shipping of goods.
- You will have the opportunity to experience and get to know the customs technical particularities at first hand.
- You will be right in the middle of the logistics process: Among other things, your exciting and responsible tasks will include the recording of incoming goods, the picking of customer orders, the preparation of shipping and dispatch, the preparation and creation of accompanying documents and export declarations (via Atlas).

Your profile:

- You have a university entrance qualification.
- You are open-minded and interested.
- You work independently and responsibly.
- You have good teamwork skills.
- You speak different languages: German: fluent in spoken and written (min. C1), English: good knowledge of spoken and written language.
- IT: good knowledge of MS Office.

We bid:

- Familiar working environment with flat hierarchies in an international team
- Interesting sphere of activity with focus on future digitization developments
- Regulated working hours incl. time recording, where the availability of work and family is guaranteed; we focus on an extended work-life balance
- Performance-related salary that can be extended via a bonus system

- Thorough training
- Attractive global and individual training opportunities as a future factor
- Working independently in a growing environment
- Temporarily a room in the flat-sharing community of the company-owned apartment
- Support in housing procurement

Have we aroused your interest?

Then please send your detailed application (with curriculum vitae and certificates in max. 2 files in PDF format), stating your earliest possible starting date and your target salary expectations, preferably by e-mail, to the following address

E-Mail: jobs@aeroaccess.de

We look forward to getting to know you!

Did you know, ...

...that most jobs at Aeroaccess are offered both full-time and via variable working time models or part-time? - Even during the year in alternation! Our personnel manager likes to speak of a freely selectable work-life balance.

...that Aeroaccess in the dual system supports work/study places for the Bachelor in different study courses, e.g. for logistics at the IUBH, and even pays the tuition fees.

...that Aeroaccess also supports work/study places for the Master in various study programs, currently full-time or part-time and also pays the tuition fees here.

...that Aeroaccess offers internships and taster courses for pupils as well as students, usually even better paid than usual. One of our colleagues started at Aeroaccess as a temporary employee during his studies and is now on his way into management.

... that Aeroaccess has integrated a bonus system which is not only designed for technicians. Here everyone can earn extra €'s.

... that at Aeroaccess the topic of further education is an integral part of the activity. Also here applies: Not only for technicians, and in the bonus system embodied.
