

Aeroaccess is one of the leading providers of complex WLAN network solutions. Since 2008, we have been convincing with our expert knowledge and passion for technological and logistical challenges, but also with our cohesion and flat hierarchies. From our headquarters in Munich / Unterfoehring, we develop individual but integrated Mobile Enterprise solutions for our predominantly international customers. Our delivery and service availability extends to over 170 countries.

Our common goal: to implement outstanding and innovative projects worldwide.

For the continuation of the successful company history we are looking for a committed and likeable personality

to expand our technical team:

Presales Technical Service Engineer (m/f/d)

(for permanent full-time / part-time / variable employment; no temporary employment)

Your most important tasks:

- Support of the sales department in the preparation of offers and tenders
- Preparation and installation of network solutions for customers
- Project planning, installation and administration of services
- Technical support, system configuration and mobile integration diagnostics for our globally active customers and partners
- Contact person for our customers in technical questions

Your profile:

- Ideally you have completed a degree in electrical engineering or computer science
- You have experience in the planning and installation of complex network solutions (> 3 years), especially in the field of WLAN
- You are team-, customer- and results-oriented
- You are willing to travel (approx. 10 %)
- You have business fluent German and English language skills in written and spoken, other foreign languages are advantageous
- Optimally you have experience with Aruba / HPE / Cisco / Juniper products
- You have experience in hardware-based application development

We bid:

- Familiar working environment with flat hierarchies in an international team
- Interesting sphere of activity with focus on future digitization developments
- Regulated working hours incl. time recording, where the availability of work and family is guaranteed; we focus on an extended work-life balance
- Performance-related salary that can be extended via a bonus system
- Thorough training

- Attractive global and individual training opportunities as a future factor
- Working independently in a growing environment
- Temporarily a room in the flat-sharing community of the company-owned apartment
- Support in housing procurement

Have we aroused your interest?

Then please send your detailed application (with curriculum vitae and certificates in max. 2 files in PDF format), stating your earliest possible starting date and your target salary expectations, preferably by e-mail, to the following address

We look forward to getting to know you!

Did you know, ...

...that most jobs at Aeroaccess are offered both full-time and via variable working time models or part-time? - Even during the year in alternation! Our personnel manager likes to speak of a freely selectable work-life balance.

...that Aeroaccess in the dual system supports work/study places for the Bachelor in different study courses, e.g. for logistics at the IUBH, and even pays the tuition fees.

...that Aeroaccess also supports work/study places for the Master in various study programs, currently full-time or part-time and also pays the tuition fees here.

...that Aeroaccess offers internships and taster courses for pupils as well as students, usually even better paid than usual. One of our colleagues started at Aeroaccess as a temporary employee during his studies and is now on his way into management.

... that Aeroaccess has integrated a bonus system which is not only designed for technicians. Here everyone can earn extra €'s.

... that at Aeroaccess the topic of further education is an integral part of the activity. Also here applies: Not only for technicians, and in the bonus system embodied.
